FINANCIAL POLICY

Thank you for choosing us as your health care provider. We are committed to your treatment being successful. Please understand that payment of your bill is considered a part of your treatment. The following is a statement of our Financial Policy. We require you to read and sign this policy before any treatment can be rendered.

REGARDING HMO'S, PPO'S and MANAGED CARE PROGRAMS: We do not participate in some of these programs. Please check with your insurance company to see if we are providers of your plan. It is your responsibility to obtain initial referral forms, etc. required by your particular insurance company, this also includes follow-up visits and visits to other physicians in our group. Please be aware that if you are seen out of network, you are liable for the difference in coverage benefits. Also, some HMO/PPO/ Managed Care Primary Care Physicians require all x-rays be taken at their office only, check with your physician before your appointment.

COPAYS: You will be expected to pay your copay prior to seeing your physician. If you are unable to pay, you will be required to reschedule your appointment.

REGARDING PATIENTS WITH NO INSURANCE: Payment is due at time of service.

REGARDING MEDICARE: All of our providers are participating physicians with Medicare. We will file all charges (including x-rays, braces, and etc.) with your Medicare and your supplemental insurance, if applicable. If you do not have a supplemental insurance, you will only be billed for the 20% not paid by Medicare or any deductible that has not been met.

COMPLETION OF FORMS (Disability, FMLA, Physician Statements, Etc.) A charge will be assessed per form. Prepayment is required before the form(s) will be completed.

REGARDING WORKMEN'S COMPENSATION/AUTO/LIABILITY: Our office requires authorization prior to initial visit. If authorization is not received, our office will call on the initial visit and try to obtain it. If we cannot obtain authorization, we will ask for your health insurance information. Also, you will be responsible for all fees until the case has been settled. WE DO NOT BILL ATTORNEYS IN WORK COMP, AUTO, AND/OR LIABILITY CASES.

MINOR PATIENTS: If you are a minor your parents and/or guardian need to accompany you to our office before treatment can be rendered. You need to make arrangements prior to being seen with your parent and/or guardian for payment to be made at the time of treatment.

XRAY: For your convenience we do have x-ray facilities in the building. If x-rays are indicated in your treatment, charges are handled in the same manner as the physician charges. If you have had x-rays taken somewhere else, please bring them with you to your appointment.

LAB: In the event we need to have a lab drawn, our office uses an outside laboratory services. You will receive a separate bill for the lab services.

PAYMENT FOR SERVICE: All patients must complete a patient information form and provide insurance information, if appropriate, or make payment arrangements prior to leaving the clinic.
·Payment in full. Payment in full is expected and can be made by cash, check, or credit card.
·Payment Plan. If you are unable to pay the account in full, financial arrangements will be established based on the following guidelines. When establishing a payment plan, the patient (or their guarantor) will sign a contract agreement with the 1st payment due upon signing the contract. This approach requires a minimum payment of $25.00. The contract will specify the dollar amount of subsequent payments and the day of the month the payments will be made. When you set up a payment plan, you will continue to receive a monthly statement. If you miss one (1) payment and fail to bring the account current by the due date of the following payment, the account will be referred to the clinic's collection agency.

- ·Patient Due Balances of $500 or less will be set up on a 90 day payment plan
- ·Patient Due Balances of $501 - $1000 will be set up on a 180 day payment plan
- ·Patient Due Balances of $1000+ will be set up on a 1 year payment plan

UNIFORM APPLICATION OF POLICY: This policy will apply to all patients, employees, or others who present themselves for services [at anytime, including any future visits].

It is always your responsibility to see that your account is paid, regardless of insurance or any other circumstances (such as litigation). Patient is responsible for costs associated with collecting said owed balances including but not limited to, collection agency fees, attorney fees, and court costs. I have read, understand, and agree to adhere to the above Financial Policy.

Acknowledgment of Receipt of Privacy Notice (HIPAA Brochure)

I acknowledge that I have received the attached Privacy Notice.

I understand I may revoke this consent at any time by giving written notice to Kansas Joint & Spine Specialist.

Signed: _____Date: _____

Printed Name: _____

In the event the patient is unable to sign, a signature by the designated personal representative is acceptable.

Personal Representative: _____

Relationship to Patient: _____

To whom it may concern,

I have attached Kansas Joint & Spine Specialist Controlled Substance Treatment Agreement that all patients sign prior to surgery. Our staff monitors prescribed controlled substances thru KTRACS.

Patients receive post op pain medications the day of surgery and then the patient will come to the office 2 weeks post op for assessment. At the 2 week post op appointment, the doctor assesses the patient and decides on the next steps, which could include to refill their pain medication. If that is the case, then a hand written prescription is given to the patient.

Refill requests after the 2 week post op appointment are called into the office for approval. We ask patients to allow 3 business days for processing.

Patients will then return in 4 weeks, 8 weeks, 12 weeks, 6 months, 9 months and 1 year for post op assessment appointments. At each appointment the doctor assesses and advises on next steps, including approval or denial of pain medication refills.

If the patient is requesting pain medication refills but there is no more the doctor can do for the patient, or the patient has been non-compliant, or it is past the twelve-month period, then the patient may be referred out to pain management or a dependency treatment center.

We have a policy that when a patient calls in requesting a pain medication refill we do the following:

- Review the patients chart
    - When were they last seen in the office?
    - What does the last appointments “plan of care” state?
    - Has the patient been compliant?
- Review KTRACS
- Once the refill is approved or denied, the patient is notified.

If this office receives notification, from any source, that a patient is receiving narcotic pain medication from more than one physician, prescribing of such medication by this office will be immediately suspended.

In the event of documented narcotic abuse, further prescriptions will not be made and the patient may be discharged from care. We reserve the right to suspend pain medication refills at anytime.

Thank you,

Kansas Joint & Spine Specialists

Kansas Joint & Spine Specialists Controlled Substance Treatment Agreement

Your physician may prescribe a controlled substance medication for pain management. This treatment agreement is a platform for communication allowing us to work together in good faith and for you to understand the importance of this medication in allowing you to function better. We expect to be partners in creating the best treatment plan for your pain management. If you cannot agree with the following points, it will result in discontinuing the controlled substance.

1. You will take the medication exactly as prescribed and will not change the medication dosage and/or frequency without the approval of your physician, physician assistant, and/or nurse practitioner.

2. You will keep regularly scheduled appointments with your physician, physician assistant, and/or nurse practitioner. There may be times when your medication will need a refill between visits. In this instance, please call our staff at least 3 days before your medication runs out. Refill requests will only be taken Monday – Thursday from 8 AM to 5 PM. Your physician, physician assistant, and/or nurse practitioner on call will not refill any pain meds after hours or over the weekend. This is not considered an emergency and will not be treated as such.

3. The controlled substance pain medication prescribed is being given in order to control pain and allow you to function better. If there are any changes to your activity level or your physical condition, the treatment may be changed or discontinued.

4. You will be ready to taper or discontinue the controlled substance pain medication as your condition improves.

5. You agree to act responsibly, including protecting and limiting access to these medications, and to dispose of any unused medication in a proper manner.

6. We expect you not to accept or seek controlled substance medications from other physicians or healthcare providers outside of our practice.

7. If you have another condition that requires the prescription of a controlled substance pain medication (narcotics, tranquilizers, barbiturates, or stimulants), you will be asked to coordinate all medications with that prescribing physician, including any pain medication for your orthopedic condition.

8. You agree that Kansas Joint & Spine Specialists may request and use your prescription medication history from other healthcare providers or third-party pharmacy benefit payors for treatment purposes.

9. You understand that it is important to use one pharmacy for all prescriptions in order to provide consistency.

10. You understand that lost, stolen, or misplaced prescriptions will not be replaced. All patients are expected to act responsibly with their medication. This medication is prescribed for you and only your needs for pain control. To allow others to use your pain medication is illegal and will not be tolerated by your physician or our practice.

11. You understand that if you are taking controlled substances (pain medication) on a schedule that is more frequent or in greater dose than can be prescribed per hospital/surgery center protocols, that you may not receive as much pain medicine. You understand that this may make your recovery/rehabilitation much more difficult.

Using illegal and recreational drugs is dangerous with prescription medications.
